

Korakonui School Bring Your Own Device User Agreement

Please read and discuss this document with your child
and contact the school if there are any queries.

At Korakonui School we are committed to ensuring that all students have access to a device when necessary. We believe that devices such as Ipads, chromebooks and laptops are the tools which will further enable our learners to reach our school vision of 'Learning for Life.' While having your own device is not compulsory, we encourage BYOD (Bring Your Own Device) and have stipulated which device is able to be brought to school in each classroom. **BYOD is not compulsory. It is entirely optional for parents.**

The school has a mixture of desktops, Chromebooks and iPads to ensure students can research information, take photos, make movies and use educational apps. These devices stay at school and therefore we anticipate that some parents may wish to purchase their own device for students to use at home, and at school.

Below is a list of recommended devices at each class level for 2020:

Ngahape: Laptop

Wharepuhunga: Laptop

Bayley: Laptop

Korakonui School Bring Your Own Device User Agreement

I want my child to bring their own digital device to school for use in the classroom learning programme. I understand (please tick each statement):

My child's responsibilities:

- ☐ To take responsibility for the care, use, content and security of their own device whether used by themselves or others. The insurance for the device is the responsibility of the family.
- ☐ To follow Korakonui School's Cybersafety guidelines.
- ☐ To ensure that devices are brought to school each day fully charged.
- ☐ Making sure ICT use is only related to learning as directed by the teacher. This means not accessing the following: personal email accounts, any form of social networking, streaming media (music, videos, movies) or games not authorised by the teacher.
- ☐ To ensure that the Chrome Browser is installed on their device and that this is the only browser used when accessing the internet at school.

The school's responsibilities:

- ☐ To provide an area in each class where devices can be safely stored e.g. shelves, cubby
- ☐ The school holds no responsibility for any loss or damage which might occur.
- ☐ To do its best to enhance learning experiences through the use of ICT tools.
- ☐ Providing a computer network with a safe and consistent Internet filtering system, which aims to protect all users.
- ☐ To reinforce and promote Cybersafety guidelines with students and their families.

I have read the Korakonui School BYOD User Agreement. I will support these expectations and abide by them. I have read and understood my responsibilities and agree to these.

Name of Student: _____

Student's Signature: _____

Parent's Signature: _____ **Date:** _____
